1. Identification

Product identifier: Levesol® DFC Zn
Other means of identification: Not available.
Recommended use: Fertilizer additive.
Recommended restrictions: None known.

Manufacturer / Importer / Supplier / Distributor Information

Company name: CHS Inc
Address: 5500 Cenex Drive
Inver Grove Heights, MN  55077 US
Telephone: 1-651-355- 6000
Website: www.chsinc.com
Contact person: EH&S/Regulatory Department
Emergency phone number: CHEMTREC (24 hours): 1-800-424-9300

2. Hazard(s) identification

Physical hazards: Not classified.
Health hazards: Not classified.
OSHA defined hazards: Not classified.

Label elements

Hazard symbol: None.
Signal word: None.
Hazard statement: The mixture does not meet the criteria for classification.

Precautionary statement

Prevention: Observe good industrial hygiene practices.
Response: Wash hands after handling.
Storage: Store away from incompatible material.
Disposal: Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC): Not classified.

Supplemental information: Not applicable.

3. Composition/information on ingredients

Mixtures

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.
4. First-aid measures

Eye contact
Check for and remove contact lenses. Flush immediately with copious amounts of water or normal saline (minimum of 15 minutes), holding eyelids apart to ensure complete irritation of the eye and eyelid tissue. Take exposed individual to a health care professional, preferably an ophthalmologist, for further evaluation.

Skin contact
Remove contaminated clothing, shoes and equipment. Wash exposed area with plenty of soap and water. Repeat washing. If redness or irritation occurs, seek medical attention. Wash contaminated clothing before reuse.

Inhalation
No adverse effects anticipated. If necessary, remove victim to fresh air and loosen clothing. Get medical attention.

Ingestion
Most important symptoms/effects, acute and delayed
In case of ingestion, rinse mouth thoroughly. Drink 1 or 2 glasses of water. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention.

Prolonged or repeated skin contact may cause irritation.

Indication of immediate medical attention and special treatment needed
Treat symptomatically.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
The product is not flammable. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Selection of respiratory protection for firefighting follow the general fire precautions indicated in the workplace.

Fire-fighting equipment/instructions
Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from the fire area if you can do so without risk. In the event of fire, cool tanks with water spray.

Specific Methods
Use water spray to cool unopened containers.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Avoid inhalation of vapors and spray mist and contact with skin and eyes. Wear suitable protective clothing. For personal protection see Section 8 of the SDS.
Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with vermiculite, dry sand or earth and place into containers. After removal flush contaminated area thoroughly with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.

7. Handling and storage

Precautions for safe handling
Avoid inhalation of vapors/spray and contact with skin and eyes. Use only with adequate ventilation. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Keep container tightly closed. Store in a cool, dry well-ventilated place. Store away from incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

Biological limit values
No biological exposure limits noted for the ingredient(s).

Exposure guidelines
Follow standard monitoring procedures.

Appropriate engineering controls
Provide adequate general and local exhaust ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and mists.

Individual protection measures such as personal protective equipment

Eye/face protection
Wear approved safety glasses or goggles.

Skin Protection

Hand protection
Chemical resistant gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

Other
Wear appropriate clothing to prevent repeated or prolonged skin contact.

Respiratory protection
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment.

In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.

Wear appropriate thermal protective clothing, when necessary.

General hygiene consideration
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.
9. Physical and chemical properties

Appearance
- Physical State: Liquid.
- Form: Liquid.
- Color: Dark brown.
Odor
- Slight ammonia odor.
Odor threshold
- Not available.
pH
- 9.0 – 10.5
Melting point/freezing point
- < 15°F do not store below this temperature.
Initial boiling point and boiling range
- Not available.
Flash point
- Not flammable.
Evaporation Rate
- Not available.
Flammability (solid, gas)
- Not available.
Vapor pressure
- Not available.
Vapor Density (Air=1)
- Not available.
Relative density
- 1.1721 g/ml
Solubility
- Completely miscible.
Partition coefficient (n-octanol/water)
- Not available.
Auto-ignition temperature
- Not available.
Viscosity
- Not available.
Other information
- Not available.

10. Stability and reactivity

Reactivity
- The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability
- Stable under normal temperature conditions.
Possibility of hazardous reactions
- Hazardous polymerization does not occur.
Conditions to avoid
Incompatible materials
- Strong acids. Reactive metals.
Hazardous decomposition products

11. Toxicological information

Information on likely routes of exposure

Ingestion
- May cause discomfort if swallowed.
Inhalation
- In high concentrations, vapors may be irritating to the respiratory system.
Skin contact
- Prolonged or repeated skin contact may cause irritation.
Eye contact
- May cause eye irritation on direct contact.

Symptoms related to the physical, chemical and toxicological characteristics
- Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity
- May cause discomfort if swallowed.
Skin corrosion/irritation
- Prolonged exposure may cause skin irritation.
Serious eye damage/eye irritation
- May cause eye irritation on direct contact.
### Respiratory sensitization
Based on available data, the classification criteria are not met.

### Skin sensitization
Not a skin sensitizer.

### Germ cell mutagenicity
Based on available data, the classification criteria are not met.

### Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

### Reproductive toxicity
Based on available data, the classification criteria are not met.

### Specific target organ toxicity - single exposure
In high concentrations, vapors may be irritating to the respiratory system.

### Specific target organ toxicity - repeated exposure
Based on available data, the classification criteria are not met.

### Aspiration hazard
Based on available data, the classification criteria are not met.

### Chronic effects
Prolonged exposure may cause chronic effects.

### Further information
No other specific acute or chronic health impact noted.

### 12. Ecological information
#### Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

#### Persistence and degradability
No data available for this product.

#### Bioaccumulative potential
No data available for this product.

#### Mobility in soil
This product is water soluble and may disperse in soil.

#### Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations
#### Disposal instructions
Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

#### Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

#### Waste from residues / unused products
Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

#### Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied.

### 14. Transport information
#### DOT
Not regulated as a hazardous material by DOT.

#### IATA
Not regulated as a dangerous goods.

#### IMDG
Not regulated as a dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

15. Regulatory information

US federal regulations

All components of this product are on the U.S. EPA TSCA Inventory List or are exempt from TSCA inventory requirements. This product is not known to be a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories
Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard – No

SARA 302 Extremely hazardous substance
No

SARA 311/312 Hazardous chemical
No

SARA 313 (TRI reporting)

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.

Food and Drug Administration (FDA)
Not regulated.

US state regulations

This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

US Massachusetts RTK – Substance List
Not regulated

US New Jersey Worker and Community Right-to-Know Act
Not regulated

US Pennsylvania RTK – Hazardous Substances
Not regulated

US Rhode Island RTK
Not regulated

US California Proposition 65
US – California Proposition 65 – Carcinogens & Reproductive Toxicity (CRT): Listed substances
Not listed.
